

Designed to slit messenger wire and webbing off 3mm x 1.2mm flat drop fiber cables, this messenger wire slitter precisely separates the messenger wire from 3mm x 1.2mm flat drop cables to make cable preparation quick and easy. This messenger wire slitter also features the following:

- Perfect for slitting the messenger wire off 3mm x 1.2mm Mini LT Flat Drop Cables
- Tool completely closes around the cable, keeping your hands safe from accidental nicks and cuts
- Blade can slit in both push and pull directions for greater versatility
- Compact design with tethering hole for maximum portability
- Includes 3 additional replacement blades, stored in the housing for convenience
