

Designed to slit fiber optic cables and buffer tubes, the CSP-1833K cable slitting pliers kit is perfect for any fiber installer. Using two interchangeable blade cartridges, it is able to slit cables 1.8 & 2.2 mm and 2.5, 3.0, & 3.3 mm in diameter quickly and easily. This cable slitting pliers kit also features the following:

- Ultra-sharp dual-sided blades slit fiber optic buffer tubes and cables with ease
- Blades are fixed to prevent damage to the internal fibers, with no adjustments needed
- Guide blocks hold the cable in place for accurate and precise cable slitting
- Spring-loaded ergonomic handles provide a comfortable grip and reduce hand fatigue
- Set screws on blade block makes it quick and easy to replace the blade
