

Designed to protect both copper and fiber cables, the CableShield Pro provides versatile connector protection from harsh outdoor conditions. This weatherproof coupled cable enclosure also features the following:

- Patented adaptive design seamlessly accommodates a wide range of copper and fiber connectors, including RJ45 couplers, keystone jacks, HDMI couplers, coaxial connectors, and SC/LC fiber connectors without any tools
- Seals around 5–8 mm cables (or 2–5 mm with optional sleeve) for a secure, weatherproof fit.
- Dual locking closure provides a secure, weather-resistant seal to keep internal components safe while still being able to access coupled cables
- Versatile mounting points for easy installation using zip ties or M5 screws
- Made from high-impact ABS plastic for long-lasting durability
- All-Weather Protection: IP54 rated; dustproof, splash resistant, UV resistant, and flame retardant (UL94-V0, UL-746C)
