

Designed for fast field swaps, this precision-fit adapter for the OFI-100 securely seats common fiber sizes for reliable, repeatable positioning during identification. Its reversible design expands compatibility without extra parts, handling everything from 250 µm coated fiber through 900 µm buffered fiber and 2 mm / 3 mm jacketed fiber, ideal for daily OSP, FTTH/FTTx, and telecom troubleshooting.

- Designed specifically for the OFI-100 Optical Fiber Identifier
- Reversible adapter design allows you to quickly adapt to 250 µm / 900 µm or 2 mm / 3 mm fiber
- Secure, consistent seating ensures proper fiber placement for dependable fiber identification

SPECIFICATIONS	
UNIT OF MEASUREMENT	Imperial
FIBER SIZE	250 µm, 900 µm, 2 mm, 3 mm
COMPATIBILITY	OFI-100
DIMENSIONS	n/a
WEIGHT	n/a
UPC #	810215350049
