

Jonard's pliers are made of heat-treated carbon steel with induction-hardened cutting edges for maximum strength and durability. These pliers feature the following:

- Designed to press UR/UY/UG, 709 series connectors, crimping "B" type connectors, and AMP Tel-Splice connectors
- Utilized on combinations of plastic and pulp insulated 19, 22, 24, and 26 copper conductors as well as 20-gauge plastic insulated copper steel wire
- Ergonomically designed handle with double dipped plastic grip for greater comfort and torque
- Lifetime Warranty
