

Designed to provide exceptional cleaning performance, the FCCS-120 Slim Fiber Connector Cleaner utilizes ultra-fine microfiber to remove dust, oil, and debris from MPO and MTP 8, 12, and 24 fiber connectors. Its slim design enables access into recessed adapters, cassette modules, and high-density fiber environments in hyperscale data centers, enterprise networks, and backbone infrastructure where performance is critical.

- Compatible with MPO/MTP 8, 12, 24 (12x2) connectors, both UPC & APC polish types, and male (pinned) & female (unpinned) pin configurations.
- One-push operation provides quick, consistent cleaning for more than 600 cleaning cycles.
- Slim profile ideal for recessed MPO adapters, cassette modules, and high-speed backbone links.
- Flip-open adapter cap with tether for secure switching between plug and port cleaning.
- Transparent housing to monitor remaining tape; color-coded label for connector identification.
- ESD-safe microfiber cloth and housing for use in hyperscale data centers, meets IEC 61300-3-35.
- Limited Warranty
