

The Utility Cable Stripping Stop Clamp is a versatile tool designed to create a precise stop during jacket stripping operations on cables ranging from ½" to 2-½" (12.7–63.5 mm) in outer diameter. Its robust construction and quick setup make it ideal for various cable types and applications.

- Adjustable clamp secures cables from ½" to 2-½" (12.7–63.5 mm) OD, preventing over-stripping and ensuring consistent results.
- Easily attaches and releases for efficient setup, adjustments, and removal during cable preparation.
- Rugged blue anodized aluminum construction ensures long-lasting performance in demanding environments.
- Ergonomically designed handle provides a comfortable and firm grip, minimizing hand strain during repetitive use.
- Its compact size makes it easy to carry and use in tight spaces, enhancing its usability on various job sites..

SPECIFICATIONS	
<b>CABLE DIAMETER</b>	0.5" - 2.5" (12.7 mm-63.5 mm)
