

The Telescoping Receiver Holder is engineered to optimize the performance of the [WCT-700](#) Wire Tracer and Circuit Finder. This rugged holder allows users to extend the receiver closer to the ground-improving trace detection, especially in buried or hard-to-locate wire applications. This holder features the following:

- Lowers the receiver closer to the ground to enhance trace accuracy and signal strength
- Custom molded grip securely holds the [WCT-700](#) receiver for hands-free operation and precise positioning
- Extends up to 5 ft (1.52 m) to reduce physical strain during field operations
- Built with durable materials that stand up to jobsite conditions without adding extra weight
- Ergonomic foam grip ensures a comfortable, non-slip hold during extended use
- [Lifetime Warranty](#)

SPECIFICATIONS	
<b>EXTENDED LENGTH</b>	5 ft (1.52m)
<b>COLLAPSED LENGTH</b>	19.5" (50 cm)
<b>FOR USE WITH</b>	WCT-700 Wire Tracer
