

The CST-1140 Round Cable Strip & Ring Tool is designed for fast and precise removal of cable jackets from round cables that are 3/16" to 1 1/8" (4.5 mm-29 mm) in diameter. This round cable stripper features the following:

- Blade locks in several positions to make longitudinal cuts for end stripping, spiral cuts for end and mid span stripping, and circular cuts for jacket removal
- Precision blade adjustment knob allows you to set the blade at precise depths to cut cable jackets perfectly every time
- Can cut through a variety of jacket materials such as PVC, rubber, PE, and many more
- Spring-loaded blade can be rotated 90 degrees for versatile slitting and can be adjusted for multiple round cable sizes from 3/16" to 1 1/8" (4.5 mm-29 mm) in diameter
- Ergonomic handles allow you to easily open the tool to insert cable
- Lifetime Warranty

User must adjust blade depth on scrap cable prior to use to confirm the blade is not damaging the buffer tube, when used with fiber optic cables.
