

Designed to facilitate telecom and datacom installations, these glow rods are the perfect tool for pushing and pulling cables in low light applications. These glow rods feature the following:

- Standard 5' long glow rods can be assembled to a full 30' long and beyond
- Luminescent flexible fiberglass rods glow in the dark while providing a splinter-free experience
- Steel connectors of the rods have flats to tighten down each connection for greater stability than the competition
- The steel connectors also have standard 8-32 threads, compatible with most other glow rods
- Pull strength of each rod is rated up to 500 lb
- Includes (15) 5' glow rods to be sold separately
