

This tool kit provides everything you need to measure power and provide a stable light source for fiber optic cable testing. This kit includes:

**FPM-55** - The perfect power meter for measuring and recording both the absolute optical power and relative power loss in fiber optic cables (-50 to +26 dBm).

- Measures a wide variety of wavelengths
- Determines absolute or relative power
- Stores up to 1,000 data entries
- Intelligent backlit control reduces power consumption
- Auto-off function can be turned on or off
- Automatic wavelength detection function when used with the FLS-50 or FLS-55
- Color LCD Display
- Backside Kickstand

**FLS-55** - Provides a stable light source for singlemode and multimode fiber in 850/1300/1310/1550 nm wavelengths.

- Highly stable output power and wavelengths
- Four modulation outputs at 850/1300 nm multimode, 1310/1550 nm singlemode
- Intelligent backlight control reduces power consumption
- Auto-off function can be turned on or off
- Automatic wavelength detection function when used with the FPM-50A or FPM-55
- SC/UPC, ST/UPC, FC/UPC & Singlemode FC-LC/UPC adapters included
- Color LCD Display
- Backside Kickstand

- A FREE BAG! The **H-22** Rugged Carrying Case with Straps (\$35 value)!
- Nylon Carry Case (FPM-55) & Storage Pouch (FLS-55)
- With both the FPM-55 and FLS-55
  - Instruction Manuals
  - (3) AA Batteries each (required for operation)
  - (2) Cleaning Swabs each
  - FC Adapter, LC Adapter, and SC Adapters

SPECIFICATIONS	
<b>DIMENSIONS</b>	11.13" x 9.13" x 6.63" (28.3 cm x 23.2 cm x 16.8 cm)
<b>UPC #</b>	810053352083
