

PRODUCT OVERVIEW

Product Name: Utility Cable Quick Clamp

SKU: UTQC-1263

Primary Use Case: Precise stop during jacket stripping operations, preventing over-stripping and ensuring consistent preparation

Cable Compatibility: Primary & Secondary Distribution Cables - Diameter: 0.5" - 2.5" (12.7 mm - 63.5 mm)

TARGET AUDIENCE

Ideal User:

- Utility Linemen
- Electrical Contractors
- Power Cable Installers

Installation Environment:

- **Overhead/Aerial Work:** Poles, crossarms, and elevated cable installations
- **Underground & Outdoor Job Sites:** Ducts, utility vaults, and substations
- **Indoor/Confined Spaces:** Tight areas for cable stripping and preparation

WHY IT STANDS OUT

1 Adjustable Clamp

Secure and reliable hold for consistent results.

2 Quick Setup & Release

Fast attachment, adjustment, and removal for efficiency.

3 Ergonomic Handle

Comfortable grip reduces hand strain during repetitive use.

4 Rugged Construction

Durable anodized aluminum for long-lasting performance.

WHY WE'RE BETTER

- ✓ Accommodates more cable sizes and setups than similar tools.
- ✓ Adjustable placement allows faster, more precise operation.
- ✓ Ergonomic handle reduces strain during long jobs, with durable anodized blue finish for visibility and long-lasting performance.
- ✓ Lifetime Warranty
