

Designed to extend a full 5 feet (1.52 meters) while providing exceptional control and accuracy, this telescoping pole is perfect for holding the CF-200 camera or installing and retrieving cables in drop ceilings or other hard to reach places. This telescoping pole features the following:

- Tapered interlocking tubes extend up to 5 ft (1.52 m) and collapse to a mere 10.5" (26.7 cm)
- Made from aluminum for maximum rigidity and light weight
- Telescoping action is considerably stronger than coil or other rod-based products, allowing greater control & accuracy
- Ergonomic grip provides a comfortable non-slip grip while handling the pole
- Standard 1/4-20 threads make this compatible with most accessories
- Built-in groove prevents the rods from rotating while in use, keeping any attachment heads firmly in place
- Lifetime Warranty
