

The **PATENTED** and award-winning MS-6A Mid Span Slit Tool is designed to provide easy access to optical fibers in outer jackets and loose buffer tubes of Prysmian Air Blown Fiber cables. With 6 precision grooves to handle various cable sizes, the sleek ergonomic design allows you to open a fiber jacket or buffer tube without damaging the fiber inside.

- Consists of 6 precision slitting grooves ranging in size from 1.2 mm to 3.3 mm
- Compact design weighing less than 2.5 oz with included tethering hole makes it perfect to use in tight spaces or on the go
- Indicator line on top of the unit indicates the position of the blade for accurate slitting and ringing
- This tool was specially designed for use on Prysmian Air Blown Fiber (also known as Fassadenkabel), and other similar style cables
- Replacement blade set available, part number: MS-6ARB
-Blades last for 5,000 slits/cuts

All of our MS Series Mid Span Tools are patented for their unique design and functionality. Our MS-426 won the 2019 Cabling Installation & Maintenance Gold award for innovation and our MS-6 won the same prestigious award in 2018!
