

Designed for splicing multi-conductor telephone cable, these connectors provide a lightweight and compact solution for splicing solid core wire. These connectors also feature the following:

- Weather resistant for additional protection
- Made from tin-plated bronze with bonded polymer insulation for superior splicing and connectivity
- Color coded purple for wire size and weather resistance
- Can be used with Air Core PIC's, 26 to 22 AWG (0.40 - 0.64 mm), with pulp, paper or plastic insulation
- Can also be used with Foam Filled PIC's, 26 to 24 AWG (0.40 - 0.50 mm)
- Can be used to make straight, butt, tap and bridge splices

SPECIFICATIONS	
# OF CONNECTORS	1000
PRODUCT MATERIAL	Nickel
DIMENSIONS	5.9 in x 5.9 in x 4.5 in (14.99 cm x 14.99 cm x 11.43 cm)
WEIGHT	2.3 lb (1044.2 g)
UPC #	810132435331
