

This patented wire 22-24 AWG wrapping/unwrapping bit and sleeve set offers a revolutionary way to approach wire wrapping by combining both wire wrapping and unwrapping functions into one bit/sleeve set. This bit and sleeve set features the following:

- Precision machined for high-quality wire wrapping in the clockwise direction and unwrapping in the counterclockwise direction
- Easily switch between wrap and unwrap mode by retracting or extending the sleeve and flipping the switch on a PTX Wire Wrapping/Unwrapping Tool
- Maximizes the efficiency of wire wrapping and unwrapping 24-26 AWG wires, while eliminating the need to purchase or carry other extra tools for unwrapping
- Retractable wire wrapping sleeve is coated with a durable 1000V dielectric material to prevent pin-to-pin shorting

SPECIFICATIONS	
WRAP FUNCTION	Wrap, Unwrap
WIRE GAUGE	22-24 AWG (0.65 mm-0.50 mm)
MINIMUM TERMINAL DIAGONAL	0.054" (1.37 mm)
MAXIMUM TERMINAL DIAGONAL	0.073" (1.85 mm)
TERMINAL HOLE DEPTH	0.50" (12.70 mm)
TERMINAL HOLE DIAMETER	0.075" (1.9 mm)
EFFECTIVE RADIUS	0.111" (2.82 mm)
WRAP POST SIZE	0.045" (1.14 mm)
LENGTH	5" (127 mm)
WEIGHT	0.134 lbs (60.72 g)
UPC #	811490013902
